## ECCENTRICA TAKES THE QUAIL WITH THREE NEW CREATIONS, LED BY THE TITANO PACKAGE

**San Marino, [August 11, 2025]** Eccentrica, the San Marino-based atelier renowned for its visionary reinterpretation of Lamborghini-based iconic supercars, returns to **The Quail, A Motorsports Gathering** with a commanding presence. This year, Eccentrica will present three distinct new creations, each exemplifying a unique expression of its evolving design language and performance philosophy.

Among the highlights is the debut of the **Pacchetto Titano**, a track-inspired evolution of the brand's acclaimed V12 restomod. Representing Eccentrica's **Sport** universe, Titano encapsulates the brand's passion for performance and dynamic purity. With motorsport-driven features and aggressive design cues, it embodies the raw, mechanical soul of speed and precision.

Also on display will be **Rose Phoenix**, a dramatic and refined example of Eccentrica's craft, finished in a bespoke triple-layer Rose Gold livery that accentuates the car's sculptural lines with luminous, iridescent reflections. Semi-matte black accents and a Coconut-colored Alcantara and Maxpell nabuk leather interior elevate the aesthetic with bold elegance. Rose Phoenix represents the **Heritage** dimension of Eccentrica: a tribute to timeless Italian craftsmanship, understated luxury, and the golden age of grand touring.

Completing the trio is the **Green Dragon**, a bold and extroverted specification featuring a Verde Chartreuse pastel exterior, black carbon-fiber detailing, and interior elements with green leather, Alcantara, and green seams. White wheels offer a striking contrast with the vivid green bodywork – a bold statement that perfectly embodies the spirit of **Eccentrica** itself, the most visionary and unconventional of the three worlds, where design breaks boundaries, expression is maximalist, and identity is forged through daring contrasts.

Each of the three unique creations stands as a manifesto of its respective world of inspiration – **Sport**, **Heritage**, and **Eccentrica** – capturing the brand's multidimensional approach to customization, performance, and aesthetic innovation.

Originally presented to critical acclaim at The Quail, Eccentrica's V12 seamlessly blended the iconic Gandini-designed silhouette, reinterpreted by BorromeodeSilva, with contemporary engineering anchored around a naturally aspirated 5.7-liter V12 engine. Now, with the **Pacchetto Titano**, Eccentrica sharpens its vision, delivering a focused yet elegantly track-oriented package for enthusiasts who seek heightened engagement without compromising on road-going refinement.

### Crafted for Occasional Track Days: The Titano Package

**Eccentrica** was born from a clear ambition: to reinterpret legendary icons without compromising their soul. At the heart of the brand lies a celebration of analogue purity, mechanical authenticity, and the emotional intensity of driving. Every creation reflects this philosophy: unapologetically bold, technically precise, and emotionally charged and the **Titano Package** is a true embodiment of this spirit.

# ECCENTRICA

The **Pacchetto Titano** is Eccentrica's most focused configuration to date, a performance-oriented evolution conceived for occasional track use, yet true to the car's grand touring soul. It refines the **V12** experience without diluting its analogue essence.

At the heart of the package lies a re-profiled fixed **carbon-fiber rear wing** and subtly redesigned aerodynamic elements, engineered to generate increased downforce while preserving the purity of the original silhouette. **Suspension upgrades** include stiffer springs and recalibrated adaptive dampers for heightened lateral responsiveness and precision feedback, without compromising comfort on spirited canyon roads.

Performance is further elevated by a **dedicated ECU remap** that enhances throttle response across the rev range: sharp, instantaneous, and visceral. Lightweight **forged alloy wheels** with a carbon-fiber construction and enhanced brake cooling ducts reduce unsprung mass and rotational inertia, improving turn-in, grip, and braking efficiency. The braking system, developed in partnership with **Brembo**, ensures precise, consistent stopping power worthy of the car's elevated dynamics. A **motorsport-derived steering wheel**, crafted in exposed antacorodal aluminum with a light blue viewfinder, offers superior tactile control and connection.

This particular example features **full exposed carbon-fiber bodywork**: not only a technical choice but an aesthetic manifesto. Aggressive, sculptural, and unflinchingly bold, it expresses the track-oriented philosophy at the core of the Titano vision. Strategically placed carbon inserts, a fire-suppression system, and custom 19"/20" carbon-aluminum wheels reinforce the vehicle's readiness for the circuit. Inside, **Alcantara upholstery** and billet aluminum accents heighten the car's acoustic and tactile character. Every vibration, every rev, every shift is transmitted with crystalline clarity.

While this configuration embodies the most performance-focused expression of Eccentrica to date, it remains entirely **bespoke** and fully **customizable**, a sharp-edged interpretation of driving purity, crafted around the driver's personal style and ambitions.

*"With the Pacchetto Titano, our objective was clear,"* says Emanuel Colombini, founder of Eccentrica. *"We wanted to create a package that genuinely amplifies the driving experience without overshadowing the core essence of our car. This evolution speaks confidently, maintaining the spirit of the original design while sharpening its purpose and performance."*

The **Pacchetto Titano** is a bold step forward in Eccentrica's mission to evolve automotive legends offering a rare fusion of analogue emotion and contemporary precision, engineered for those who expect more than just performance: they demand character.

## About Eccentrica

Founded by entrepreneur Emanuel Colombini, Eccentrica is a luxury automotive brand dedicated to reinterpreting Lamborghini-based iconic supercars through a meticulous blend of heritage design, advanced performance, and bespoke craftsmanship. Originating from Colombini's profound passion for legendary supercars, particularly the Lamborghini Diablo, Eccentrica creates highly exclusive vehicles, the V12s, that elevate classic automotive icons through state-of-the-art engineering and refined aesthetic enhancements. Limited to a select number of units, each Eccentrica V12 features personalized configurations tailored specifically to discerning automotive enthusiasts who seek both historical reverence and modern precision. All vehicles are fully homologated, including for the US market. Eccentrica's commitment to quality, innovation, and exclusivity ensures each creation not only preserves the soul and charisma of the original design but also introduces a compelling, contemporary driving experience.
