## **ECCENTRICA DEBUTS AT FUORI CONCORSO DURING COMO CAR WEEK**

[Como, Italy, 16th April 2026] Eccentrica will make its official debut at **FuoriConcorso**, taking place during **Como Car Week** on the shores of Lake Como.

The event, scheduled for **May 16 and 17, 2026**, represents one of the most refined gatherings in the international automotive calendar, bringing together collectors, enthusiasts, and some of the most iconic cars ever created.

Set within this unique context, Eccentrica will showcase the **Eccentrica V12 in its Pacchetto Titano**, a bold expression of contemporary craftsmanship, where analog emotion meets modern engineering. Defined by its distinctive character and attention to detail, the Pacchetto Titano embodies the essence of the Eccentrica vision.

**FuoriConcorso** will also offer a rare opportunity for friends of the brand, collectors, and enthusiasts from around the world to experience the car up close, many for the very first time. More than a static display, it will be a moment of connection, a chance to meet, share perspectives, and celebrate a common passion for automotive excellence.

With its debut at FuoriConcorso, Eccentrica enters a stage where heritage and innovation coexist, reinforcing its position within the landscape of contemporary automotive culture.

## **CRAFTED FOR OCCASIONAL TRACK DAYS: THE PACCHETTO TITANO**

The **Titano Package** introduces a re-profiled carbon-fiber rear wing, elegant but effective, generating meaningful downforce without disturbing the car's unmistakable silhouette.

Underneath, stiffer springs and recalibrated adaptive dampers bring out the chassis' wilder side, while maintaining the compliance needed for a spirited Sunday drive through the hills.

Under the hood, a remapped ECU doesn't chase headline horsepower figures but instead delivers a rawer, more immediate surge across the rev range, making throttle response instant, sharp, explosive, alive.

Lightweight forged alloy wheels trim unsprung mass, heightening both steering feedback and braking precision.

Rounding out the package is a steering wheel derived from motorsport, **lighter in hand and sculpted for superior grip**, crafted to give track day aficionados an even purer connection to the Eccentrica V12. Additional functional upgrades, such as enhanced brake-cooling ducts and carbon-fiber component replacements, underscore the V12's readiness for track use.

This example of Eccentrica V12 is equipped with an exposed carbon-fibre body, a sign of Eccentrica's allure and bespoke option for their clients.

## **ABOUT ECCENTRICA**

Headquartered in the Republic of San Marino and led by Emanuel Colombini, Eccentrica Cars specializes in cutting-edge automotive engineering and design. Inspired by the iconic Lamborghini Diablo, Eccentrica Cars aims to create exceptional automobiles inspired by the '90s nostalgia that redefine the future of high-performance vehicles. With a state-of-the-art solution featuring groundbreaking design and unrivaled craftsmanship, Eccentrica Cars offers an unparalleled driving experience for enthusiasts worldwide. Eccentrica Cars' mission is to create restomods that pay homage to tradition while pushing the boundaries of innovation. Its Diablo restomod project, named Eccentrica V12, epitomizes this philosophy, showcasing a car that retains its legendary personality while incorporating modern technical advancements. From the custom carbon fiber bodywork to the updated electronics and state-of-the-art materials, every detail is meticulously crafted to provide an exhilarating driving experience.
